Concept

Design

Build

Deliver

This is an office. This is mission control.
This is a sanctuary. This is a think tank.

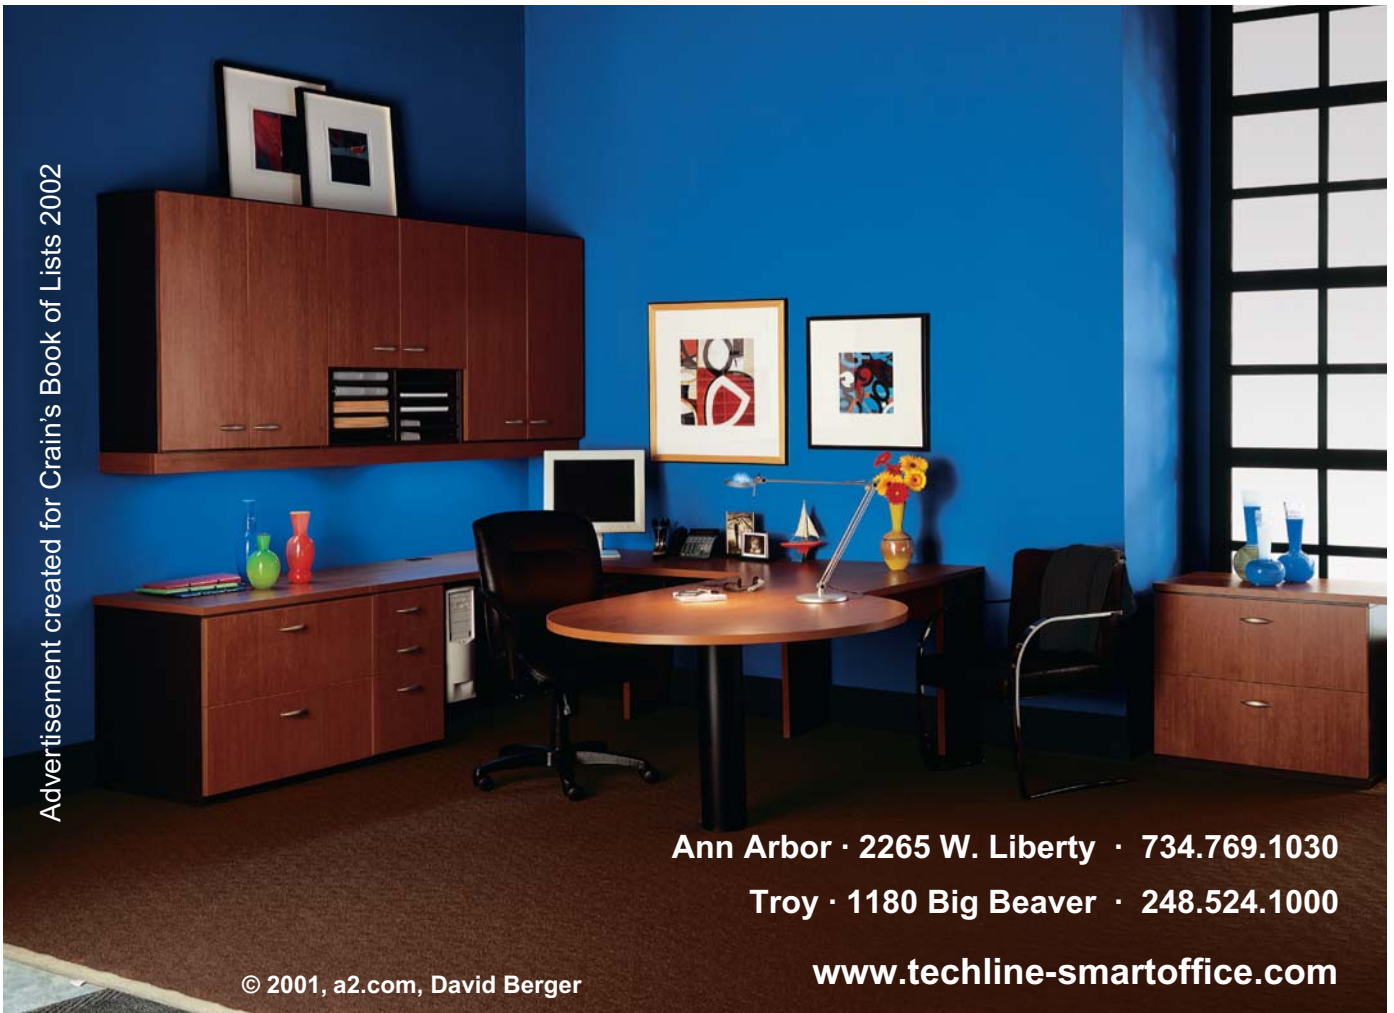

No two employees are alike. Each has
different needs. But your bottom line is
the same.

Productivity. With a system of modular
components, productivity is maximized by
making organization easy. This is work in
progress. This is furniture created to make
offices as powerful as the people who work
in them.

This is Techline, serving the A & D
community for over 30 years.

"Techline met all the specific requirements
at our 200,000 sq. ft. facility. Great job!"

- Central Plains Clinic, Sioux Falls, SD
